dominik fuss' RUMPUS

" e t h o l o g y "

Rumpus is the young and very inspired contemporary Jazz quintet around the great and sensible trumpet player Dominik Fuss, who is leader of and composer for the group (By the way he is the son of the well-known top saxophone player Martin Fuss). The band made several recording sessions over the last years and this album contents the best songs of these dates. The music goes from pleasant Jazz, a little hip-hoppy, a little funky, groovy, to almost Classic, then scratches Free Jazz again, but all very naturally. DOMINIK FUSS shows in this debut album of the Bandproject RUMPUS, that he can put up a very exciting and at the same time wonderfully solid Modern Jazz. „Rumpus“ is a synonym for „Fuss“– what in German means „foot“, but on english gives the band exactly the right name: something like „monkey cage“. A cage filled with young musicians like rough diamonds, that want to show off, but at the same time know, that they depend on the others, and so they give each other the room that they need! Modern, melodious and elegant in tone is this music. Ten inspiring stories! A great and promising debut!
