Susan Blake

"Love Won't Wait"

All songs on this album were written by Susan Blake (words & music)!

A fresh crossover with influences from Jazz, Dixieland, Country and Pop, over which her poppy, spirited voice shines. Ever since she left schools she did lots of touring with Dixieland bands - especially some from Hungary. One of these bands is the MISKOLC DIXIELAND BAND, which is the fine backing group on this record. As a composer Susan Blake is quite succesful: In the last few years, when she was busy with country music (also as a singer), she won prizes for the best song - composition and lyrics - at the Austrian Country Awards! Here on these recordings she came back to her Dixie roots, but in a delicate mix with Mainstream Jazz, Pop and Country influences. The songs sound positive and light, as if you already know them, the lyrics are with a lot of humour, about love and life. There is also a lot of room for the bands soloists and on the title track Miss Blake takes a solo on the trombone, one of her additional instruments besides voice and piano.
